

OUR GREEN EFFORTS

Past and Present :

- Replacement of steam traps with lifetime, high efficiency units
- Water saving faucet and shower heads in residence halls
- Replacement of Varsity Athletic Center main court lighting with high efficiency lighting
- Trayless serving in Dining Hall reduces food waste
- Mulching mowers
- Native plantings that require minimal care and watering
- Central steam plant heating
- Current car fleet average of 30 mpg on highway
- Expanded recycling program
- Green cleaning custodial chemicals
- Reusable beverage program
- Recycling of waste cooking oils
- Small quantity hazardous material generator
- Standard carpet w/high recycled fiber content and reclamation program
- Double-sided printers

Potential Future Initiatives:

- Dishwashing machine replacement to water saving unit
- LEED certification on new nursing facility
- Hybrid car fleet
- Green certified custodians
